

CURRICULUM VITAE

Prepared Jan 2014

Lev Guzmán Vargas

Place of birth: Putla, Oaxaca, México

Date of birth: December 8, 1972.

E-mail: lguzmanv@ipn.mx, huitzo@hotmail.com

Web: <http://sites.google.com/site/guzmanlev/>

Professional Address:

Unidad Profesional Interdisciplinaria en Ingeniería
y Tecnologías Avanzadas
(UPIITA), Instituto Politécnico Nacional
Av. IPN No. 2580, G. A. Madero,
México D. F. 07340, México

Home Address:

Education:

1995	BS (Phys. and Math.)	Instituto Politécnico Nacional, México
1997	MS (Physics)	Instituto Politécnico Nacional, México
2002	PhD (Physics)	Instituto Politécnico Nacional, México

Employment:

2000–present **Associate Professor.**

UPIITA- Instituto Politécnico Nacional, México D.F.

2003 **Summer Visit**
 Northwestern University

2004-2005 **Visiting Scholar**
 Northwestern University
 Evanston, IL, USA.

Personal and Academic Statement

Throughout my scientific career I have developed a strong interest in the applied science, particularly, physics of life. Through this genuine attraction for science I developed an interest in subjects located in the interface of Physics and Biology. The areas of physics that I am most interested in are time series analysis, complex networks and energy converters. Since I concluded my Ph. D. I have worked in the non linear analysis of time series and dynamical systems. My involvement in projects related to time series analysis and networks helped me to strengthen my interests in the area of non-linear dynamics and to enrich my knowledge with this new form to study complex systems. My recent work has been focused on the study of scaling properties of heartbeat and excursions time series, electrical signals related earthquake activity and characteristics of complex networks.

In the case of complex networks, I have studied the transcriptional regulatory networks of bacteria like the *E. coli* and *S. cerevisiae*. I am also interested in exploring the transport properties and organization of complex networks with applications to physical, biological and social systems.

Courses Taught:

2012-2014	Selected Topics in Signal Processing
2010-2012	Física II (Electromagnetism)
2008	Física III (Optics and Modern Physics)
2007	Física III (Optics and Modern Physics), Biophysics
2006	Biophysics, Physics III (Optics and Modern Physics)
2005	Physics I (Mechanics and Dynamics)
2004	Physics III (Optics and Modern Physics)
2003	Physics I (Mechanics and Dynamics) Physics III (Optics and Modern Physics)
2002	Physics I (Mechanics and Dymamics) Physics III (Optics and Modern Physics)
2001	Biophysics (Bionic Department)
2000	Physics II (Electromagnetic Theory) Biophysics (Bionics Department)
1999	Physics III (Optics and Modern Physics) Physics I (Mechanics and Dymamics)

Honors and Awards

Undergraduate fellowship of Instituto Politécnico Nacional, México, 1993-1995.

Graduate (MSc) fellowship of Consejo Nacional de Ciencia y Tecnología, 1995-1997, México.

Graduate (PhD) fellowship of Consejo Nacional de Ciencia y Tecnología, 1998-2002, México.

Travel Award, 1st. International Conference on Quantum Limits to the Second Law, San Diego, California, USA, July 29-August 3, 2002.

Winner of the fellowship "Summer research visit to USA Labs for young Mexican researchers", program supported by U.S.-México Foundation for Science and Mexican Academy of Sciences, July-August 2003.

Award to the best Ph. D. thesis "A non-linear analysis of heartbeat times series". Instituto Politécnico Nacional, México, 2003.

Award to Research Project **SEP-CONACYT, México** 2006, "*Redes Complejas, Fluctuaciones y Sistemas Dinámicos*", amount: \$415,000.00 MXN.

Memberships and professional services

Hirsh's Index ($H=9$, Source: Google Scholar, Dec. 2014)

Member of the National Systems of Researchers (SNI-CONACYT), level II, México.

Member of the Mexican Physical Society

Member of the Mexican Academy of Sciences

Review Editor - Frontiers in Systems Biology
(<http://frontiersin.org/psychiatry/systemsbiology/editorialboard/>)

Reviewer of scientific journals: *Eur. Phys. Lett, Physica A, J. Appl. Phys., Energy Institute, Natural Hazards and Earth System Sciences, Acta Geophysica, Rev. Mex. Fis., Int. Journal of Modern Physics C*

Programming languages: C/C++, Python

Programming tools: Matlab (Octave), Python-Networkx, Numarray-Numpy, Bash, Awk (Linux), Pajek, Grace
